- **OS:** Linux, Windows

PROJECTS

ChatX – Real-Time Web Chat Application

[GitHub Repo](#) | December 2025

MERN, Tailwind CSS, Socket.io, WebRTC, Cloudinary, GenAI

Developed a real-time messaging application built with **React**, **Node.js**, **Express** and **Mongodb**, featuring private and group chats, file sharing, and audio and video calls. Utilizes **Socket.io** for instant bidirectional communication and **Cloudinary** for scalable media management, complete with an admin dashboard for moderation.

VideoTube – Video Sharing Platform

[GitHub Repo](#) | November 2025

MERN, Tailwind CSS, Cloudinary, GenAI

Built a full-stack video sharing app using React and Node.js, enabling users to upload, watch, like, and comment on videos. Integrated Cloudinary for media storage and designed a responsive UI with Tailwind CSS.

Movie App – React Based

[GitHub Repo](#) | May 2025

React.js, Tailwind CSS, API

Built a responsive movie application using React.js, allowing users to browse, search, and view movie details via API integration with a clean and modern UI.
